## School Accountability Report Card

### Reported Using Data from the 2017-18 School Year

#### Published During 2018-19

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

**School Facility Conditions and Planned Improvements (Most Recent Year)**

The current Weaverville Elementary School was built in 1948. Since that time, classrooms and a gym have been added. The building and grounds are in very good condition, thanks to a dedicated maintenance staff. A new wing containing eight classrooms was added in 2005, as well as a new heating and air system throughout the school.

There are approximately 132 computers on campus along with Chrome Books (laptops) in our 4th-8th grades at a 1:1 ratio. Our school has a fully up-to-date library with over 19,000 books available, art room, music room, STEAM (Science, Technology, Engineering, Art, and Math) Lab, and a fully modernized Science Lab in our 6th-8th grades. The school is set up well for student learning with the latest technology, student workstations, and clean and neat facilities.

There are separate playgrounds for kindergarten, 1-3rd grades, 4-5th grades, and for the upper 6-8th grades. Site resources include a soccer field, multi-purpose field, appropriate playground equipment and a track. Student behavior on the playground during the school day is monitored by paid supervisors before school and after school by teachers.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	2016-17	2017-18	2016-17	2017-18	2016-17	2017-18
English Language Arts/Literacy (grades 3-8 and 11)	49.0	44.0	49.0	43.0	48.0	50.0
Mathematics (grades 3-8 and 11)	37.0	34.0	35.0	33.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

### CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2017-18)

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded
All Students	267	260	97.38	43.85

Students with Disabilities	48	45	93.75	15.56

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Mathematics by Student Group  
Grades Three through Eight and Grade Eleven (School Year 2017-18)**

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded

The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Science for All Students

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

The Safety Plan outlines what steps will be taken during different types of emergencies that may occur during school and non school hours. Our School Safety Plan can be viewed at the school or on our website. Our school holds fire drills on a monthly basis as well as bus evacuation, intruder alert, and duck and cover drills on an annual basis. Student safety assemblies are also held during our annual Fire Safety week. Our school strives to stay current in our school safety practices and procedures, and continues to make improvements to the safety and security of our students. The school has completed installation of a comprehensive CCTV camera system, installed barricade devices on all doors, and implemented "Keep N Track", an electronic sign-in/sign-out system for students, visitors and vendors. ### Professional Development (Most Recent Three Years)

Our teachers are all teaching within their subject area. Teachers receive three days of staff development each year, in addition to the 180 days of classroom teaching, attending workshops, trainings, and meetings—involving all aspects of school operations. These staff development days are decided upon by a group of teachers and administrators after looking at our state testing results as well as other measures that the school uses for evaluation. Each school year, 3 days are dedicated for professional development. All sources of student data are utilized to establish professional development needs. Following are Professional Development activities:

\* Math teaching team participated in county wide Math Grant

\* A team of three teachers and an administrator attended week long Success For All training in Baltimore and three days of training in Arizona in 2017-18, with off site training in New York in 2018-19.

\* Early release days are embedded into the school calendar every Tuesday to allow teachers additional time to collaborate on student data and academic goals.

\* Success for All coaches meet with the TK-5 staff every month coaching in order to review data and provide training staff.

\* Off Site Success For All coach meet with teachers and on site coach throughout the year.

- \* The site principal also receives annual professional development by attending both state and national conferences hosted by ACSA (Association of California School Administrators) and NAESP (National Association of Elementary School Principals).
